In addition to a lighted digital line counter that can be adjusted dependent on line type, the Altum™ Syncro conventional reel incorporates a highly adjustable syncro drag system. By cranking the handle 1/3 of a turn in a counterclockwise motion, a 50% decrease in drag pressure is achieved. This feature is especially useful when fishing with downriggers as it allows baits to be dropped easily without having to disengage the reel.

Ambassadeur® 7000i Linecounter Syncro

Why use a line Counter reel? A question often asked by many anglers. The Ambassadeur Line Counter's main use is its ability to find fish at different levels when boat fishing. Instead of the angler having to count the number of turns up or down to the bite zone, the Line Counter does this automatically with the read out display that is found on the left-hand side plate.

Revo® Winch Spinning Reel

NEW '22

Redesigned from the ground up, the Revo Winch spinning reel has been engineered to be the pinnacle of performance for techniques that require precise and methodical retrieves. With a 4.8:1 gear ratio, the Revo Winch excels at throwing small crankbaits, swimbaits, spybaits, and other lures where retrieval rate is crucial to bait performance. It combines a Zenon inspired A-SYM body design to minimize the body size and optimize weight and balance with the AM-G fully machined gear systems for the ultimate in smoothness and cranking power. Casting performance is maximized by the V-Rotor design and Rocket line management system that allows anglers to fish mono, braid, and even difficult-to-manage fluorocarbon.

Carabus AG STX Spinning Reel

CARABUS AG reels are the obvious choice when it comes to choosing the right tool for the right job. Super shallow aluminium spools allow for ultra fine braids and monos to be used without hindering casts with light spools. Low gear ratios allow for the required 'super slow' retrieve for when conditions are tough. Matching aluminium spare spools allow for a switching between braid and mono and a moments notice. At just 200 g these lightweight reels are the perfect pairing for our range of CARABUS AG Rods.

- Lightweight and compact perfect for AG
- 5.2:1 gear ratio
- 4+1 Ball bearings
- Ultra shallow Aluminium spool
- Aluminium spare spool
- EVA Handle knob

Max Pro Spinning Reel

Taking design cues from the Revo® lineups, the Pro Max™ spinning reel boasts the same exceptionally smooth package as it's low profile counterpart with a lightweight graphite frame and seven bearing system. The Pro Max also features our Rocket Line Management System™ allowing maximized casting distance while reducing wind knots.

- 6 ball bearings + 1 roller bearing provides smooth operation
- Lightweight graphite body and rotor
- Machined aluminum spool provides strength without adding excess weight
- Everlast™ bail system for improved durability
- Slow Oscillation provides even line lay with all types of line
- Rocket line management™ system provides better control of all types of fishing lines
- Rocket spool lip design™ allows better control of line coming off the spool

Abumatic® SX Spincast

Modern design and advancements in spincast fishing reel technology make the Abumatic SX spincast reel stand out from the crowd. Construction starts with a graphite frame and stainless steel front cone. A snubberless casting system challenges traditional spincast design by utilizing the pickup pin to initiate casting instead of pinching the line against the cone. This equates to an increase in casting efficiency and a reduction in line wear. The QuadCam engagement mechanism initiates faster line engagement on the retrieve. MKII 506

We have linked the name and cosmetics of this reel to the famous original 506 The 706 was proved to be the best selling UK ABU reel for several years and by using our engineers and consultants we have made some key changes to improve the reel further and becoming 506 MKII! - New handle assembly is more secure and the syncro drag is more efficient (added carbon washers) - Improved gear components have made the reel feel smoother and more powerful - Improved the gear lock design - now the pin secures the gear without damaging it - Added arrow on the reel rotor to help show the correct direction to remove - Improved the push button / pin release mechanism. Is now more positive and reliable - same original 506 - New ceramic coated line pin that reduces ware and increases winching power - Improved the chenille quality so it works correctly

- Advanced Polymeric body with aluminium front cone
- On / Off instant anti-reverse switch

SPIKE® PRO Pelagic Inline Rod

NEW '22

Abu Garcia® SPIKE® is a concept for dedicated perch and zander anglers. These rods are designed by professional anglers with only one goal: develop the best rods thinkable to target big perch and zander. The characteristics of SPIKE® PRO rods: super light weight, super sensitive, highly responsive, fast and top class finishing. Each rod has a unique action with a unique component set-up to make it perfect for the specific conditions it is designed for.

- Super light weight and ultra responsive high modulus carbon blank with NANO TECHNOLOGY
- Light weight anti tangle Fuji SiC K(L) guides
- Fuji reel seats with carbon nut
- A-class cork handle grips
- Developed and tested by the best perch and zander anglers from Europe

Beast X Deadbait Rod

A small and concise range of BEAST X pike rods to cover all deadbait and livebait fishing for pike. Full through and progressive actions allow for soft deads to be cast distance without the worry of tearing or losing your bait. Power reserves in the bottom of the blank helps with powerful lunges under the tip and absorbing runs at distance. Understated graphics and a matt finish along with abbrieviated cork handles make these rods not only something special to look at but also a pleasure to use. Available in 4 lengths and 3 test curves you'll find the right tool here to tame your next BEAST.

- High quality M40 carbon blank
- Progressive through action blanks
- Abbreviated Grade A cork handle
- Quality Fuji anti-tangle guides

Veritas SENSI-S Spinning Rod

NEW '22

VERITAS SENSI-S is a rod series which is designed for light / ultra light lure fishing. The 30T carbon rod blanks with solid carbon tips are super light weight, have fast to extra fast actions and offer great sensitivity and responsiveness. The anti-tangle light weight Seaguide guides offer great line guidance and the open design reel seats are very comfortable, modern and increase the rod sensitivity. Ideal rods for fishing species like perch, trout and chub.

- Ultra light weight 30T Carbon blank with solid carbon tip
- Fast to extra fast blank action provides great sensitivity
- Light weight open design reel seat
- Seaguide anti-tangle guides, ideal for braided line usage
- High density EVA handle grips
- Hook keeper for easy and safe lure attachment

Svartzonker® Classic Motoroil Cast Rod

These Svartzonker 'Classic Motoroil' series signature rods are something special. Designed by Claes Claesson – a very experienced predator angler and lure/rod builder from Sweden (the man behind Svartzonker) – and built by the engineers of Abu Garcia. This cooperation results in a beautiful mix between modern and classic, between lightness and power, between style and technology. These rods have everything what the serious predator angler can wish for.

- Designed by Svartzonker, built by Abu Garcia
- For the specialized predator angler
- Strong and powerful rod blanks
- Fast to super-fast rod actions
- Fuji reel seat
- Light weight anti-tangle Seaguide XOG guides
- Special motoroil UV reactive colours
- Beautiful high end finish and components

Diplomat V2 Travel Rod

NEW '22

The famous DIPLOMAT range stands for mobility and travelling. These spinning rods are very short in transport length due to their 4 or 5 section blank design, but they fish and feel like a conventional 2 section rod! Ideal rods to bring on holiday or to keep in the back of your car - always ready to fish! The range contains a number of different lengths and casting weights, so plenty of opportunities for different techniques, species and situations. The rods come with a strong travel tube case.

- Strong and responsive 24T Carbon rod blank
- 4/5 pcs blanks - very small in transport size
- Moderate-Fast to Fast blank actions
- Light and ergonomic Abu Garcia WFS reel seat
- Light weight Stainless Steel LTS guides
- Including hook keeper
- Delivered in strong protection tube with adjustable carrying strap

Carabus AG Spinning Combo

The CARABUS range of Area Game combos requires just a lure to get you fishing. Pre-spooled with 0.09 mm mono you are perfectly suited for casting ultrlight micro spoons or tiny hard baits to hungry trout. Soft action rods and lightweight CARABUS reels with low gear ratios enable you to work the lure at the required speed, even in trickly conditions.

- Area Game introductory combo
- Pre-spooled with 0.09 mm line
- Ultralight soft action
- Just add lure!

Big McMy Tail is a belly rolling Jerkbait which is extremely easy to work, with an ultra smooth gliding side to side action. Work it with light taps of the reel handle or a straight retrieve for wide S-curves. There is no wrong way to fish it! Fantastic belly shimmer on the drop, with rippling erratic action from the slim tail. You can use any type of gear with a soft or stiff leader.

McHybrid is an effective and unique hybrid lure where two worlds meet in one, soft and hard at the same time. The first lipless crank with a soft paddle. With its wide and oval body, it provides a realistic baitfish profile, with a wandering, elegant swimming pattern that attracts big predators. Attach it to the upper eyelet and it will swim deeper and with a wider wandering pattern. The lower eyelet gives it a smoother and shallower swimming pattern. If you want an even smoother and super shallow presentation, switch from the paddle to the tail.

1531903, 1531911

- Made of impact resistant ABS
- Weighted with eco-friendly zinc
- Stainless steel wire through for extra strength
- Oversized stainless steel tail screw for easy installation of paddle/tail
- Hand-painted
- Eco-friendly phthalate-free plastisol
- Designed in Sweden by Svartzonker
- Extra strong stainless steel split rings
- Super sharp Berkley Fusion19 hooks

McSnack, the Snack that catches them all. McSnack is an erratic glidebait with loads of belly flash, wandering action with a super tempting wiggle on the drop and it imitates fleeing baitfish perfectly. Work it with a medium stiff castig or spinning rod, with lots of twitches, reel handel jerks and long pauses.

- Made of High Impact ABS Plastic
- Eco friendly weighted
- Stainless steel through-wire for heavy duty use
- Works with both soft and stiff leaders
- Hand painted
- Designed in Sweden by Svartzonker

McHybrid gives you the best of two worlds. You get the durability of a hard bait and at the same time the smooth and fish like action of a shad tail.

This lure can be fished in two different depth levels. The lower ring gives a shallow and softer action while the upper ring provides a deeper and quicker movement.

McHybrid can also be combined with the soft tails of McMy and McMio. This will give the lure a slower action which can suit lower water temperatures very well.

- Super durable with a beautiful action
- Can be fished at different depths
- A killer for pike and perch

Swimming in a seductive S-Curve, the Penna is a flawless imitation of a sandeel! On the spin stop, this lure 'flees' down, away from the seatrout, in a fluttering and vibrating fashion. Just like a reel sandeel! A movement very few seatrout will be able to resist. Besides cast&retrieve and spin stop, small twitches will bring this bait to life in a very different way triggering violent seatrout attacks

1549965, 1549975

- Made of high grade ABS plastic
- Leadfree design and plastic free packaging
- Great castability
- Seductive S-curve swimming action
- Irresitable falling and vibrating action on the spin stop
- Erratic and unpredictable movement when twitched
- Amazing colours

Casts like a bullet, fishes like a dream. The Smakk has everything. The Smakk has a little unpredictable action on the retrieve, breaking out to the left or right every few feet. It's that movement that triggers the seatrout to hammer the Smakk! At a slow retrieve the action is very slow and deliberate, but try to speed the Smakk up a little bit and see what happens. We can't get enough of it!

We love the seductive wobble of the Napp! Even on the retrieve the Napp breaks it's centre line, whilst still running straight and true. A movement that truly mimics a wounded and fleeing fish, seatrout just can't resist the Napp. This lure works really well fished slowly, but even at higher speeds you'll be able to fish the Napp effectively in the strike zone!

The Rull is an extremely long casting lure, with a steady rotating action when retrieved. On the spin stop, the Rull starts spinning away from the retrieval line giving off a lot of vibration which triggers bites from following seatrout. If you are looking for a lure to reach far away spots, cast extremely accurate and fish at all speeds; the Rull will be your first pick!

The Piil definitely does justice to it's name; it casts like a dream! We have tried our best to make this bait run smooth and straight, but still have that irresistible irregularity in it's tail wiggle. It's those small triggers that really make the seatrout go crazy. And don't forget to incorporate a spin stop every now and then, we love the action on the spin stop!

Thin and wide like knife, while still having great castability. The attractive fluttering action of the Blixx will show at both low and high retrieval speeds. Due to the wider profile the baits falls slower on the spinstop, but sends out more vibrations than any other seatrout lure. You can be sure that no following trout will be able to resist the amazing spin stop action of the Blixx!

- Leadfree design and plastic free packaging
- Great castability
- Equipped with super sharp Fusion19 trebles
- Attractive fluttering action when retrieved
- Starts spinning away from the retrieval line on the spin stop
- Amazing colours

The Shaky is isn't named Shaky for nothing! Wiggling it's tail and body like and injured fish, it sends out vibration to every predatory fish in de vicinity that there's an easy meal around. The smaller size is great for seatrout, perch and trout and the bigger sizes can be used for pike and other large predators.

1572786, 1572796, 1572806

- Great wiggling action
- Allround spoon for all predators
- Fantastic looking colors
- Great castability

The Abu Garcia Fast Cast is an incredible far-casting lure. Due to the special design, the lure flies like a bullet but also had an irrisistable wobble and flanking action; perfect for both fresh and saltwater applications. Another unique feature is that when you change the treble position to the front, a great fluttering action is created, making it perfect for jigging.

- Incredible casting distance
- Wobbling and flanking action
- Great for fresh and saltwater
- Perfect for jigging and casting

Toby saw its light of day as early as 1956 and has been one of the best selling lures in the world. It was so successful and attractive, that for a long time it was a part of the ABU logotype. Today the Toby range goes from 7 g up till 60 g.

1546285

- A classic since 1956
- Enticing action
- Irresisteble for all predators
- Perfect for fresh and salt water

Hammer

1312894, 1312896

1312895, 1312897

An allround lure which sends out signals and vibrations in every direction tempting the fish to bite. Easy to cast, as the weight is concentrated to the hook attachment at the rear.

- All-round lure - designed to send signals and vibrations to encourage bites
- Weight in the rear for easier casting

When fishing small streams and rivers for freshwater predators light and balanced tackle is often required. The Droppen fits into this category easily - it's low centre of gravity makes casting around small and intimate venues simple. Freshwater predators such as perch, chub, pike and trout find its action irresistible.

- Designed to catch freshwater predators such as perch, chub, pike and trout
- Low centre of gravity

The Droppen Maxi has a leadfree body that doesn't spin and there prevents any line twits. The lure is available in beautiful colors, perfect for both clear and murky conditions. Because the body is weighted to swim flat, you can fish this lure very slow whilst creating a large profile in the water. A great lure for trout, char and grayling, but in the bigger size also a pike magnet!

1559941, 1559944

- Non-spinning body prevents line twist
- Beautiful colors
- Can be fished really slow
- Creates a large profile under water
- Widely applicable

The Abu Garcia Reflex Spinner is an all time best seller since 1951. Reflex has a simple design that's easy to use and catches fish of all species. The streamlined Reflex casts long and accurately, even against the wind. And there's a strong possibility that any retrieve will experience the strike of a bass, trout, pike, perch and chub or just about any freshwater/saltwater fish imaginable. It's an all-purpose lure that consistently catches fish.

The all new Reflex Arctic is designed for clear water where fish are often shy for bright or unatural colors. Simple colors and an unfeathered treble hook are sure to fool the wise trout, grayling, and arctic char.

- A best selling lure since 1951
- All-purpose, simple design, catches fish of all species
- Casts well
- Performes at every retrieve

Fish Smoker

The Abu Garcia Smoker is the perfect way to smoke your catch and give you a quick and easy way to make delicious fish dishes. Made from Stainless steel, this smoker is highly durable and tough, designed for long lasting use. You can sprinkle a thin, even layer of the Abu Garcia sawdust along the bottom of the oven and put the lattice into position and lay your fish with other food stuffs onto the lattice and slide on the lid. Simply fill the fuel container with methylated spirits, put it exactly under the center of the oven and light. After approximately 8 to 15 minutes the fire has extinguished and your fish will be prepared. This special form of pressure smoking gives a delicious, succulent smoky taste to your fish. The Abu Garcia Smoker is finished off in a black color with a dark brown colored lid and is supplied with a drip plate, smoke grill/lattice and lighter fluid container.

Beast Eyewear

NEW '22

Abu Garcia sunglasses are superior sunglasses featuring the best possible materials while fishing. Various colors of lenses available that suite your style of fishing. For example, the color; 'Stone Amber' for clouded day or 'Ice Blue' on a clear day with bright sunlight. Every model to fit your preferences. All models are having Hydrophobic coating on the front side of the lens. With a hydrophobic coating the rain droplets would simply bead off the lens. Another key benefit is that the lenses become very easy to clean, a simple wipe of the lens will remove stains and remove the need for lens cleaners. Anti-glare coatings are applied to the rear of the lens to eliminate stray light, these coatings interfere with the light beam's wavelength and incident angles. Polarized lenses are laminated with vertical strips. This only allows vertically angled light to pass through the lens into the eye. This therefore eliminates glare because the horizontal waves of the glare cannot pass. When using a product with polarized lenses, benefits are especially notable around bodies of water. The polarized coating allows for the wearer to look into the water clearer as typically water reflects glare.

- Hydrophobic coating reduces water spots and makes for much easier cleaning
- Anti-glare coatings interfere with the light beam's wavelength and incident angles.
- Polarized coating allows for the wearer to look into the water clearer as typically water reflects glare.
- All models are equipped with a hardcase and microfiber pouch.

Pulse Realistic Craw

NEW '22

1570937, 1570945

1570938, 1570946

1570939, 1570947

1570940, 1570948

1570941, 1570949

1570942, 1570950

1570943, 1570951

This super realistic crayfish has a floating body and claws. This means that when fishing on a Texas Rig, Carolina Rig, Cheb Rig, Ned Rig or Jighead the Craw will stand up on the bottom, just like a real crayfish doen when defending itself. Absolutely impossible to resist for any big perch or zander. And if that's not enough, the added shrimp flavor will trigger them.

1570944, 1570952

- Hollow body and claws
- Super realistic design
- Shrimp flavor
- Fantastic colors
- Widely applicable

The Berkley Sick range is a family of 6 types of softbaits, designed to cover every situation you will face on the water. The Sick Vibe is a high frequency vibration paddletail. The long finesse tail will move at any speed and trigger bites in the slowest situation. Fished on jigheads, dropshot rig or an offset hook this bait works super well for perch, zander and pike.

- Powerbait scented softbaits
- Very souple material
- High frequency vibrations at any speed
- life-like and bright color patterns
- Long finesse tail with small, high frequency movements
- Can be used in combination with a wide variety of softbait tactics

The Berkley Sick range is a family of 6 types of softbaits, designed to cover every situation you will face on the water. The Sick Vamper is a V-Tail bait with a fat body. The skinny tail makes a beautiful waving action when fished on a dropshot rig or jighead. The triangular shape of the body will create a belly flashing action when the bait is fished aggressively. Fish it trough thick cover with an offset hook or use it as soft jerk bait.

- PowerBait scented softbaits
- Very souple material
- Heavy flanking action at any speed
- life-like and bright color patterns
- Beautiful waving tail action
- Extremely allround

The Berkley Sick range is a family of 6 types of softbaits, designed to cover every situation you will face on the water. The Sick Curl is a bulky body with super attractive, long curltail that moves at any speed. The ribs in the body create extra vibrations and make sure the Powerbait scent is being spread to convince every predator fish to bite. The small paddle at the end of the curl tail keeps the bait in a stabile position.

- Powerbait scented softbaits
- Very souple material
- Heavy flanking action at any speed
- life-like and bright color patterns
- Super attractive curly tail
- Ribs along the body create extra vibration

The Berkley Sick range is a family of 6 types of softbaits, designed to cover every situation you will face on the water. The Sick Bug is specially designed for slow retrieval. The soft textured rubber, multiple appendages and two oversized twister tails and antenna create maximum movement, vibration and perceptibility under water. Even at minimal speed. On top of that, every bait is packed with UV flakes, which makes the bait stand out in both clear and dark conditions. The bait performs outstanding on the Carolina rig, but also delivers on the Texas rig, as a jig trailer or on a regular jig head

- Powerbait scented softbaits
- Very souple material
- Life-like colour patterns with UV details
- Flattened body moves perfectly along the bottom
- Super flexible appendages give an enticing action
- Perfect for Carolina Rigging, Texas Rigging and other softbait presentation

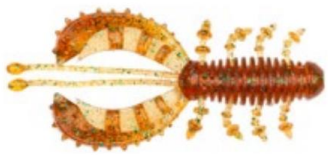
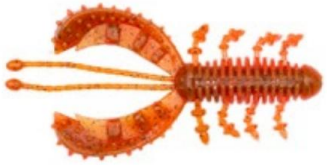
1525632

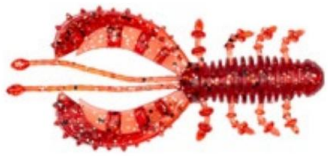


1525633

1525634



1525635



1525636

The Bubble Creeper is a uniquely designed, super soft lure that moves at the slightest vibration. It's ribbed body, rubs against a lot of water pressure and moves like crazy during a drop. The flapping claws have a high appeal specification by making the base as thin as possible and increasing the waterflow towards it's toes. Fished on jigheads, offsethooks or a drop shot rig, this lure catches predators on high or super slow speeds.

- Fish hold on 18x longer due to the PowerBait® formula
- The soft material moves at the slightest vibration and attracts predators on high and super slow speeds
- The flapping claws have a unique design to create a powerful swimming action
- Versatile lure used on jighead, offsethook or dropshot rig

Baitfish Rigs

The keeled design of the lead prevents tangles when fishing deep water and fast flowing currents for halibut and cod. Equiped with super sharp saltwater resistant hooks which can handle even the biggest fish. The long leader helps present the bait as natural as possible. Because the front hook is sliding, you can adjust this rig to the size of your baitfish

- Available in 300gr and 450gr in two different colors
- Super sharp saltwater resistant hooks
- Abrasion resistant leader material
- Reflective foil for extra attraction
- lead shape prevents tangling
- Adjustable single hook

The Trencher is equipped with our Weight Ramp system, which is a unique feature in crankbaits. This helps to make longer and more accurate casts. Combine this with the stabalizing disc in the lip which helps the bait run straight and true, even at higher speed and bumping of structure, and you have one of the most deadly crankbaits on the market.

- Weight Ramp System
- Stablizing disc in the lip
- Floating
- Fantastic action both trolling and cranking

Maximum darting action and easy 180-degree head turns and side flash when jerked, dual brass weights and a tungsten weight transfer system for increased casting distance, ultra-sharp Fusion19 hooks, the DEX Stunna is a must-have! The DEX Stunna measures 11 cm in length and weighs 14 g, with a diving depth between 0.9 m-1.8 m this is the perfect bait for shallow spots or when the fish are higher up in the water. This versatile jerkbait has a fall rate of 30 cm per 8 seconds. The DEX Stunna delivers a slow sink and shimmy on the pause to entice less-aggressive fish into biting, and crisp darting actions when jerked that'll drive any fish crazy.

- Maximum darting action
- 180-degree head turns and side flash when jerked
- Dual brass weights
- Tungsten weight transfer system
- Fusion19 EWG trebles

The slow side-to-side flanking action when retrieved is deadly for pike, zander and other predators. When jerked, the Fat Bullet has a great irregular action with a lovely wobble on the stop. Also equipped with the Weight Ramp system, casting accuracy and distance is second to none. The Fat Bullet is widely applicable to most European fisheries and so easy-to-fish, every angler will love it.

- Sinking
- Weight Ramp system
- Enticing side-to-side flanking action when retrieved
- Great action when jerked, amazing wobble on the stop

The Berkley Zilla Jointed Glider is an easy-to-fish glide bait with an aggressive S-shaped swimming action when steadily retrieved. Give it some jerks and pauses to create an even more attractive, erratic action. Use the Klip Lok® system to make the bait sink faster so you can present the lure deeper. Equipped with sharp Fusion19 trebles a perfect bait to catch big Pike in shallow and deeper waters.

- Slow Sinking
- Weighted with eco-friendly materials
- Aggressive swimming action when steady retrieved
- Adapt the swimming depth with the Klip Lok® system
- Equiped with razor sharp Fusion 19 treble hooks
- Diving depth: 0,5 - 1,5+m

The Zilla Swim is a 4-piece swimbait with an extremely natural and subtle action. On slow and fast retrieves it swims in a beautiful S-curve. Use the Klip Lok® system to present this bait in deeper water while casting or trolling. These proven big pike catchers are equipped with sharp and durable Fusion19 trebles.

- Slow Sinking
- Weighted with eco-friendly materials
- Elegant swimming action when steady retrieved
- Adapt the swimming depth with the Klip Lok® system
- Equiped with razor sharp Fusion 19 treble hooks
- Diving depth: 0,5 - 1,5+m

The Zilla® Spinnerbait is specifically designed for pike fishing in weedy areas and murky water. Equipped with a loud spinner blade and large skirt this bait will by noticed by every pike in the vicinity. Available in 25 g and 50 g, in a wide range of proven colors, the Zilla® Spinnerbait is applicable to all European pike fishing circumstances. The 50 g version is equipped with a detachable stinger hook which provides the angler with an improved hook-up rate when there is less need for a weedless presentation.

- Specifically designed for pike fishing in weedy and murky waters
- Equipped with a loud blade and large skirt
- Perfect for casting and trolling
- Great colors!

The Rattlin' Powerblade is pure perch candy! Due to the flat nose this bait wil stand upright on the bottom, imitating a feeding fish or crayfish. The attractive rattle drives every perch completely crazy. The Rattlin' Powerblade has different points to attach your leader, giving the lure a tighter or more vibrant swimming action.

- Stands upright on the bottom
- Different attachment points give a different swimming action
- Attractive rattle
- Amazing colors
- Can be fished jigging, cast&retrieve, vertical

Powerblade

Rigorously field tested by the Berkley Pro Team, the Powerblade is the ultimate finesse blade proven to trigger bites in all conditions. The Powerblade is versatile enough to catch all predators such as zander, perch, pike, trout, chub and much more. Precision engineered to trigger more strikes, it emits a high frequency, fish attracting vibration with minimal rod action. On the drop, the Powerblade glides naturally through the water column enticing fish to follow it down and strike

- Laser cut stainless steel blade
- High frequency vibes
- Sharp hooks
- Super UV Accents

Crankbaiting can be deadly effective for all freshwater predotors, like perch and zander! The subtle action of the Dredger provokes hard strikes when either casted and retrieved or trolled. The internal weight division provides straight and true casting for every angler.

- Body shape and weighted bill drive bait deep to stay in the strike zone longer
- Tight subtle action best for deep water fish
- Great casting and easy to crank for less fatigue all day fishing
- Slow rise at pause

The unique, wider belly than upper head width gives instability to the bait, allowing it so swim at all speeds and generate energetic moves. The shad silhouette design has an ultra-low center of gravity, allowing for all kind of use - from slow roll, jigging, trolling and burning it. The Flatt shad is a unique and silent vibration bait, making it perfect for both finesse and power fishing. Also it is perfectly useable for both in fresh and saltwater because of its sharp and strong Fusion 19 hooks and long distance properties. The smaller versions are really irresistible for perch, zander, aspius, pike and even seabass, while the larger versions are also widely known for jigging and casting for catfish and pike.

1532667, 1532677

- Swims perfectly at all speeds
- Troll it, jig it, burn it, slow roll it!
- No internal rattles, allowing finesse and power fishing
- Long distance casting
- Fusion 19 hooks

Whether you are a weekend warrior or a seasoned pro, this easy to use top water lure is designed to deliver explosive top water action. Chunk and wind the Berkley® Choppo around cover and in open water for a serious waking action. The Choppo's durable tail propeller won't melt in your tackle box and the enhanced surface area provides more sound and spray. The precision balance of the bait ensures that it's action begins immediately and it swims straight at a variety of speeds.

Spin Bomb

1487237

1487237

1487238

1487240

Create a top water commotion they can't resist with the Berkley® Spin Bomb. Not only does the Spin Bomb's shape make it ideal when there are smaller baitfish present but it's unique shuttering action when paused is a perfect wounded bait imitator. It's clear plastic props feature a cupped design with an enhanced surface area that can spin at slower speeds with maximum spray. Twitch it, rip it, or simply reel it across the surface for irresistible spraying action.

Justin Lucas Pro Tip: Ideal use around shallow areas with bass feeding on bluegill. Twitch and pause for a commotion they can't resist.

- Cupped plastic propellers that spin at slower speeds
- Enhanced propeller surface area for maximum spraying action
- Tapered back adds flash and surface disturbance
- Equipped with sharp Fusion19™ hooks

1487102

1487109

1487110

Whether you are a weekend warrior or a seasoned pro, this classic top water lure is designed to deliver explosive top water action. Berkley® J-Walkers feature a sleek tail weighted design that has been refined through countless prototypes to provide casting distances while their hydrodynamic shape, precision balance point, and resting position allow for an easy walk the dog action that has been proven on the water. Topped off with Fusion19™ hooks, Berkley® J-Walkers are sure to impress anglers of all skill levels.

Justin Lucas Pro Tip: An ideal lure for all top water scenarios. Twitch your rod tip on semi-slack line to walk the dog. Fish the J-Walker around shallow cover, submerged grass, or across deep water points.

- Tail weighted design tuned for casting distance
- Attractive, easy to start walking action that can be worked at a variety of speeds
- Tapered back adds flash and surface disturbance
- Ideal action and sound for a variety of top water scenarios
- Equipped with sharp Fusion19™ hooks

SPOOL YOUR REELS WITH CONFIDENCE

THE BRAND NEW SICK LINES WILL NOT LET YOU DOWN IN ANY CIRCUMSTANCES

We made a unique combination between the Berkley Science labs in the United States and our Pro anglers in Europe, this all to create the best possible line for catching the most wanted European predator species. Very strong and smooth braided lines that can be used from finesse techniques to catch a fat perch or to cast big lures for monster pike. Together with the strong fluorocarbon line you have the best possible leader to catch zander in the most difficult conditions. The monofilament line can perfectly be used for catching trout or fishing dead bait for Pike and Zander. A SICK range of lines for all European techniques and species.

NEW '22

Berkley SICK 8 strand PE braid, super smooth high-performance line with low stretch and high knot strength. Because of the Nano coating with microcrystalline polymer, it is very abrasion resistant. SICK lines are designed to fishing for Pike, Zander, Perch and Trout.

- Zero stretch: for exceptional sensitivity helps you catching fish in the most challenging conditions.
- Superior Knot Strength: Berkley SICK 8 strand PE lines ensure rock solid and secure knots.
- High Performance & long-distance casting: Sick lines with high-tech Nano microcrystalline that offers great high abrasion resistance and extreme smoothness for further casting.
- Multipurpose: Berkley SICK PE braid is designed for catching all predator fish swimming in our European waters like; Pike, Zander, Perch or Trout.

x5 Braid

Berkley® x5 Braid is a conventional braid using 100% PE fibers. 4 stranded braids are popular and Berkley® x5 takes it to another level by adding an additional strand making x5 strong, reliable, and built to cut through weeds and vegetation.

- Designed for optimal strength and abrasion resistance
- Fish confidently in thick vegetation and heavy cover

FluoroShield™

BERKLEY® Fluoro Shield™ is the best of both worlds; a co-polymer core with a fluorocarbon coating. The fluorocarbon coating "shields" the inner co-polymer making it nearly invisible underwater and abrasion resistant while remaining manageable for optimized casting distance.

- Fluorocarbon infused Co-polymer
- Nearly invisible under water
- Abrasion resistance comparable to fluorocarbon
- Manageable on both spinning and casting gear for optimal castability

Trilene® 100% Fluorocarbon

NEW '22

Berkley® Trilene® 100% Fluorocarbon is the extra tough version of professional grade fluorocarbons. This proven formula provides incredible shock strength, abrasion resistance, and knot strength. Fast sinking with greater line density for high sensitivity, great knot strength and almost invisible under water.

- Designed to be superior in abrasion resistance.
- Clear, almost invisible underwater.
- 100% Fluorocarbon.
- Superior strength.
- Easy store small spool.

Trilene® Sensation

NEW '22

Trilene® Sensation® monofilament has been trusted by our Berkley pro staff for more than a decade. With extreme strength-per-diameter, it is still flexible and manageable. This strength allows us to make it in smaller diameters for better lure action and castability.

- Nylon Co-Polymer Blend formulated for less stretch.
- 30% more sensitive than avg of monofilaments.
- High strength per diameter ratio.
- Ideal for spinning reels.

Flex Braid

NEW '23

Berkley FLEX BRAIDED SUPERLINES are unique Thermally fused PE lines with special abilities which can help you make fishing more fun. This FUSED line has the advantage of being much more abrasion resistant than regular braided lines. This means you will face less line breakages when your line is in contact with rock, timber, or other obstacles under water.

This line is also very slick which reduces the sound when touching the guides of your rod. This helps you catch the wariest fish out there. Next to smooth, we made Berkley FLEX Braid a little stiff, this results in easy and further casting, also tying knots is made easier.

The line also has the minimum amount of stretch. This helps you detecting the smallest of bites, so you can catch even the most timid of fish.

All this together makes this a perfect fishing line for fishing in fresh or salt water; Berkley FLEX Braid will not let you down.

- Very manageable = Easy to knot, easy to cast, no windknots = less hassle when fishing.
- Extra Tough = Very abrasion resistant = Less line breakage on Rocks, Mussels, Heavy Vegetation, and Timber.
- Super sensitive = No stretch = Better bite detection.

E-Motion EVA Spinning Rod

Fuel your emotions with the E-MOTION range of rods from Berkley. The selection of spin and casting rods includes some impressive finishes found on some rods within a much higher price range. Using 24ton - fast action - high density carbon blanks to maintain strength and durability, the E-Motion rods also carry K series SIC anti-twist guides so you won't get into trouble with line tangles. Berkley has worked on a new ergonically designed reel seat making sure your reel stays put whilst reducing angler fatigue. Dependant on the rod choice, grips come in a high density EVA foam and natural cork front grip. The E-MOTION rod really is a very good rod for a very good price.

- 24 Ton high density carbon
- K Series SIC anti twist guides
- Ergonomic design reel seat
- High density EVA and cork grip
- Fast action blanks
- Perfect allround predator rods for the modern-day angler
