# OUR STORY, OUR HISTORY

Sometimes a product can remain virtually unchanged for hundreds of years, until a flash of inspiration leads to a revolutionary innovation that changes an industry forever.

This is the story of one such moment.

Drew McGill and Stan Wright owned the Wright & McGill Co. in Denver, Colorado. Their company was known for tying high-grade fishing flies, a passion of Drew's. On this fateful day in the 1920's, Drew took a break while fly fishing the Colorado River.

While the rainbows and native trout were rising, they were proving exceedingly difficult to hook. Lighting his pipe and reflecting on ways he could improve his technique, Drew's attention was drawn to one large eagle circling lazily overhead. As the bird landed atop a nearby dead cottonwood, Drew noticed how the tips of the bird's talons lightly gripped the weathered, stripped limb.

Suddenly Drew had an idea: what if his hooks were shaped like an eagle's talon?

Using a pair of fishing pliers, he slightly curved the point of his hook, giving it the angle needed to penetrate the leather of his fishing creel. He spent the rest of the day testing different shapes and sizes until an afternoon thunderstorm drove him from the river.

Drew returned to his fly factory in Denver and immediately started refining his design. He envisioned a hook that would exert greater penetrating power in the direct line of pull of the leader. It wasn't long before he created his masterpiece, a hook that would change the way people fished forever, with sweeping curves and sharper points, forged for strength and greater hooking power.

What else could Drew and Stan call it but Eagle Claw?

Today, the Eagle Claw family of brands is the most recognized in all of fishing. We still make our world-famous hooks in Denver, and are proud to be the only brand made in the United States.

## An American Made Workhorse

The Jet Sled is equal parts pack mule, utility trailer, and farmhand. Okay, it's a sled, but the word sled doesn't quite illustrate the versatility, dependability, ruggedness, and absolute utility of the Jet Sled. Pairing the Jet Sled with all new covers, bags, and wheel cart adds more versatility and usefulness to an already proven American-Made workhorse.

# SLEDS

## Jet Sleds

Jet sleds are the standard in outdoor sleds. Built in the USA, all Jet Sleds are made of HDPE and are designed to provide years of use. Available in Jet Sled, Jet Sled HD, and Camo patterns. The Jet Sled Heavy Duty series is thicker and stronger than the standard jet sled with higher walls to tackle the toughest terrain and conditions. And the camo patterns Sleds accommodate a variety of outdoor uses in any season. Variety of sizes.

# COVERS

**Jet Sled Mesh Cover**  
Secure oversized loads with the Jet Sled Mesh Cover. Heavy weight nylon for maximum durability.

## Jet Sled Travel Covers

Dragging your Jet Sled shouldn't be a hassle. Keep all your gear safe and dry with a Shappell travel cover with sizes to fit any application. 600D polyester fabric with elastic hem keeps rain and snow out of gear. Variety of sizes.

# HAULER BAGS

## Jet Sled Hauler Bags

The decoy hauler bag securely attaches in seconds and provides enough extra storage for up to 3 dozen full body goose decoys or 6 dozen duck decoys.

# WHEEL CART

## Jet Sled Wheel Cart

The Jet Cart transforms a standard jet sled into a two wheeled utility cart in seconds. The 16" wheels and steel frame allow it to handle rough terrain and heavy loads up to 250lbs. The adjustable frame fits most size Jet Sleds including: JSR, JS1, JSX, KDR, KD1, KDX.

**EAGLE CLAW**  
**TROKAR**

**TROKAR POINT**

Inspired by surgical instruments, Trokar's unique triple sided hook point ensures faster, deeper hook penetration that requires half the pressure of the competition for hookset. Manufactured using cold forged, high-carbon, American-Made steel, Trokar hooks are elite grade—offering better durability and stronger holds.

# CIRCLE HOOK RIGS

Lazer Sharp's new Striped Bass and Shark Inline Circle Rigs feature 100% new regulation compliant, American Made inline circle hooks. As catch and release becomes more popular among anglers today, gentle fish handling is becoming increasingly important.

Studies have shown as high as 48% mortality rate on released fish. Inline circle hooks have been proven

to reduce fatal injuries decreasing the mortality rate by hooking the fish in the corner of the mouth in the majority of hook sets.

The Lazer Sharp Striped Bass Inline Circle Rigs are tied with 100% regulation approved American made fish hooks, offering the angler peace of mind in efforts to conserve their fisheries. A variety of rigs are available.

The MT. Elbert fly series offers great quality fly fishing gear at competitive pricing. The combos in the series have the added benefit of including everything an angler might need to start fishing immediately including: reels rigged with fly line, backing and leader, assorted flies, tools, and rod case.

Building on the fly fishing options from Eagle Claw®, the MT. Elbert series continues the naming convention started by the high-end Sawatch Fly series released in 2020, of basing rod names on iconic Colorado mountain ranges and peaks. The names harken back to the storied history and roots of Eagle Claw itself, which began on the banks of a Colorado stream in 1925.
